Date:

06 JUL 2026

To,

All State/UT Licensing Authorities.

Subject:- Piperacillin + Tazobactam related 'Blurred Vision' - Recommendations for the change in Prescribing Information Leaflets (PILs)–regarding.

Sir,

The National Coordination Centre for Pharmacovigilance Programme of India (NCC-PvPI), Indian Pharmacopoeia Commission (IPC), Ghaziabad, has forwarded recommendations arising from the assessment of Adverse Drug Reaction (ADR) reports pertaining to **Piperacillin + Tazobactam** formulations, which was discussed in 24th Signal Review Panel dated 2nd November, 2023. In the meeting, the PvPI has evaluated the Patient Population Incidence - Adverse Drug Reactions (PPIs-ADR) based on Individual Case Study Reports (ICSR) and made recommendation to CDSCO to take necessary measures to incorporate "**Blurred Vision**" as an adverse drug reaction in to the Prescribing information leaflet (PIL) of the **Piperacillin + Tazobactam** based medical products marketed in the country.

The aforementioned recommendations of NCC-PvPI were subsequently reviewed by the Subject Expert Committee (SEC) on (Antimicrobial & Antiparasitic) during its meeting held on 09.04.2026 at CDSCO-HQ, New Delhi. After detailed deliberations, the committee recommended that CDSCO should request the State Drugs Controllers to direct the manufacturers to incorporate '**Blurred Vision**' associated with Piperacillin +Tazobactam as ADR in the corresponding Prescribing Information Leaflet (PIL) of the drug.

The recommendation of the SEC has been considered by this office. Accordingly, you are requested to direct the manufacturers of **Piperacillin + Tazobactam** formulations under your jurisdiction to mention "**Blurred Vision**" as an adverse drug reaction in the Package insert/Promotional Literature of the drug.

Action taken in this regard may be intimated to this office.

Yours faithfully,

(Dr. Rajeesh Singh Raghuvanshi)
Drugs Controller General (India)
