

File No. P. 17011/03/2024-RP

Date: 24th November 2025

Subject: Recommendations of Signal Review Panel, Pharmacovigilance Programme of India (PvPI) communicated to Central Drugs Standard Control Organisation (CDSCO) for taking appropriate regulatory actions.

The Signal Review Panel of PvPI has recommended the following India specific drugs safety Signals/Prescribing Information Leaflet (PIL) changes/Drug Safety Alerts:

S. No	Suspected drugs	Adverse drug reactions	SRP Recommendations	Action taken by CDSCO/PvPI
4th Signal Review Panel (SRP) Recommendation (SRP held on December 8-9, 2014)				
1	Carbamazepine	Stevens Johnson syndrome (SJS) and Toxic Epidermal Necrolysis (TEN)	For Drug Safety Label Change – Patient may be screened for HLA-B*1502 prior to initiating the Carbamazepine treatment	The Order has been issued by CDSCO to all State Drugs Controllers for the same on dated 12.05.2015.
5th SRP Recommendations (SRP held on May 9, 2015)				
2	Piperacillin and Tazobactam	Hypokalaemia, Bronchospasm	To include in PIL	The Order has been issued by CDSCO to all State/UT Drugs Controllers for the same on dated 23.12.2015.
3	Mannitol	Hypokalaemia	To include in PIL	The SRP recommendations received from PvPI deliberated by the SEC (Cardiovascular & Renal) committee in its 103 rd meeting on 19.05.2022. After detailed deliberation, the committee recommended that CDSCO should request the State Drug Controllers to direct the manufacturers of the drug to include mannitol induced Hypokalaemia in the corresponding package insert of the drug.

4	Rota-Virus Vaccine	Intussusception	To include in PIL	Updated by the MAHs
6th SRP Recommendations (SRP held on October 6, 2015)				
5	Rabies Vaccine	Erythema Multiforme	To include in PIL	The Order has been issued by CDSCO to all State/UT Drugs Controllers for the same on dated 04.10.2016.
6	Ranitidine	Cardiac Arrest	To include in PIL	<p>The 43rd Subject Expert Committee – Gastroenterology Hepatology on 17.12.2021 at CDSCO, HQ, committee noted that, SRP after critical evaluation of the ADR concluded that the causal relationship between intravenous ranitidine and cardiac arrest can be established but no association can be established with effervescent tablet with available data. Product labelling information also refer that as with other H₂ receptor antagonists bradycardia, AV block with injection only was mentioned in the package insert of Ranitidine IV marketed in UK.</p> <p>After detailed deliberation, the committee recommended that CDSCO should request State Drugs Controllers to direct the manufacturers of the drug that same label should be incorporated in the package insert of Ranitidine IV product marketed in India. However, the committee also requested CDSCO to share the details received from PvPI, IPC to the experts.</p>
7	Pulmonary Surfactant	Pulmonary Haemorrhage	To include in PIL	The 58 th Subject Expert Committee – Pulmonary on 29.03.2022 at CDSCO, HQ recommended that CDSCO should request the State Drugs Controllers to direct the manufacturers of the drug to include pulmonary haemorrhage as adverse drug reaction to the corresponding PIL of the drug.

7 th SRP Recommendations (SRP held on March 01, 2016)				
8	Ceftriaxone	Stevens Johnson syndrome	To include in PIL	The 107 th Subject Expert Committee – Antimicrobial & Antiviral on 23.12.2021 at CDSCO, HQ recommended that CDSCO may request State Drug Controllers to direct the manufacturers of the drug to incorporate drug associated Stevens Johnson syndrome (SJS) in the package insert of the drug.
9	Lamotrigine	Stevens Johnson syndrome (SJS) and Toxic Epidermal Necrolysis (TEN)	To include in PIL	The 73 rd Subject Expert Committee – Neurology & Psychiatry held on 14.10.2021 at CDSCO, HQ, after detailed deliberation recommended that CDSCO may request the State Drug Controllers to direct manufacturers of the drug to incorporate lamotrigine induced SJS/TEN in PIL of the drug.
10	Betamethasone	Photosensitivity Reaction	To include in PIL	<p>The 62nd Subject Expert Committee – Dermatology & Allergy held on 13.10.2021 at CDSCO, HQ, after detailed deliberation, Committee noted that the misuse of steroids such as Betamethasone ointment formulations over the face is associated with the sensitive skin–Topical Steroid Dependent Faces (Which may induce photosensitivity) and rarely contact allergy with photosensitivity.</p> <p>After detailed deliberation, the committee opined that more data may be obtained from PvPI, IPC in support of the ADR-betamethasone induced photosensitivity.</p>
11	Azithromycin	Acute Generalised Exanthematosus Pustulosis (AGEP)	To include in PIL	The 107 th Subject Expert Committee – Antimicrobial & Antiviral on 23.12.2021 at CDSCO, HQ recommended that CDSCO may request State Drug Controllers to direct the manufacturers of the drug to incorporate drug associated Acute

				Generalised Exanthematosus Pustulosis (AGEP) in the package insert of the drug.
12	Cloxacillin	Acute Generalised Exanthematosus Pustulosis (AGEP)	To include in PIL	The 107 th Subject Expert Committee – Antimicrobial & Antiviral on 23.12.2021 at CDSCO, HQ recommended that CDSCO may request State Drug Controllers to direct the manufacturers of the drug to incorporate drug associated Acute Generalised Exanthematosus Pustulosis (AGEP) in the package insert of the drug.
8th SRP Recommendations (SRP held on July 8, 2016)				
13	Cefixime	Acute Generalised Exanthematosus Pustulosis (AGEP)	Signal (To include in PIL)	The Order has been issued by CDSCO to all State/UT Drugs Controllers for the same on dated 09.04.2019.
14	Sodium Valproate	Gum Hyperplasia	To include in PIL	The Order has been issued by CDSCO to all State/UT Drugs Controllers for the same on dated 09.04.2019.
15	Itraconazole	Photosensitivity reaction	To include in PIL	The 107 th Subject Expert Committee – Antimicrobial & Antiviral on 23.12.2021 at CDSCO, HQ recommended that CDSCO may request State Drug Controllers to direct the manufacturers of the drug to incorporate drug associated Photosensitivity in the package insert of the drug.
16	Ibuprofen	SJS/TEN	To include in PIL	Under consideration of CDSCO
17	Amoxicillin/Clavulanate Potassium	Stevens Johnson syndrome (SJS) and Toxic Epidermal Necrolysis (TEN)	To include in P IL	The 107 th Subject Expert Committee – Antimicrobial & Antiviral on 23.12.2021 at CDSCO, HQ recommended that CDSCO may request State Drug Controllers to direct the manufacturers of the drug to incorporate drug associated Stevens Johnson syndrome (SJS)/Toxic

				Epidermal Necrolysis (TEN) in the package insert of the drug.
18	Ciprofloxacin	Stevens Johnson syndrome (SJS) and Toxic Epidermal Necrolysis (TEN)	To include in PIL	The 107 th Subject Expert Committee – Antimicrobial & Antiviral on 23.12.2021 at CDSCO, HQ recommended that CDSCO may request State Drug Controllers to direct the manufacturers of the drug to incorporate drug associated Stevens Johnson syndrome (SJS)/Toxic Epidermal Necrolysis (TEN) in the package insert of the drug.
9th SRP Recommendations (SRP held on November 29, 2016)				
19	BCG vaccine	Lymphadenopathy	To include in PIL	Under consideration of CDSCO
20	Docetaxel	Candidiasis	To include in PIL	The SRP recommendations received from PvPI deliberated by the SEC (Oncology & Rheumatology) committee in its 126 th meeting on 26.05.2022. After detailed deliberation, the committee recommended that CDSCO should request the State Drug Controllers to direct the manufacturers of the drug to include Docetaxel associated Candidiasis as an adverse drug reaction in the corresponding prescribing information leaflet.
21	Itraconazole	AGEP	Signal (To include in PIL)	The 110 th Subject Expert Committee – Antimicrobial & Antiviral on 23.03.2022 & 24.03.2022 at CDSCO, HQ recommended that CDSCO should communicate the State Drugs Controllers to direct the manufacturers of the drug Itraconazole to include AGEP as a potential Signal in the drug PIL.
22	Furosemide	Dermatitis Lichenoid	Signal (To include in PIL)	The 24 th Subject Expert Committee - Reproductive & Urology on 20.04.2017 at CDSCO, HQ agreed with the recommendation of Signal Review
